

Amendments to the Claims:

This listing of claims will replace all prior listings of claims in the application.

Listing Of Claims:

Claim 1 (canceled).

Claim 2 (currently amended): A cable arranging structure comprising:

first and second printed circuit boards;

a first shield box covering said first printed circuit board and having a first opening;

a second shield box covering said second printed circuit board and having a second opening;

at least two electrically conductive members electrically connected to said first and second shield boxes and arranged oppositely relative to each other between said first and second shield boxes, said electrically conductive members being in the shape of a substantially flat plate and remaining untouched with each other;

a cable connecting said first and second printed circuit boards by way of said first and second openings,

the part of said cable located outside said first and second shield boxes being entirely arranged between said at least two electrically conductive members.

Claim 3 (original): A structure according to claim 2, wherein at least one of said electrically conductive members has a width greater than the width of said cable.

Claim 4 (original): A structure according to claim 2, wherein one of said electrically conductive members is a cabinet connected to both of said first and second shield boxes and holding said first and second printed circuit boards.

Claim 5 (original): A structure according to claim 2, wherein said first and second openings are formed by respectively partly cutting and bending said first and second shield boxes

Appl. No. 10/676,283
Paper dated August 4, 2006
Reply to Office Action dated May 12, 2006

and at least one of said electrically conductive members is fitted to the bent parts of said shield boxes.

Claim 6 (original): A structure according to claim 2, wherein at least one of said electrically conductive members is connected to said shield boxes by means of gaskets.

Claim 7 (canceled).
